NATIONAL ENGINEERING MANUAL (SECOND ED.)
210-V-AMENDMENT AL55

SUBJECT: ENG-SAFETY

Purpose: To update Subchapter A - GENERAL, Part 501, Authorization; Part 503, Safety; Subchapter C - APPLICATIONS, Part 520, Streams and Channels;

Effective Date: This supplement is effective upon receipt.

Explanation of Supplement. To issue the following updated material:

AL-ENG-1 - Alabama Engineering Approval Authority - Updates the form in the NEM. This is the same form that is currently in use.
AL-ENG-23 and 24 - Clarifies distribution of these forms and issues updated version. These forms are the same as the ones currently in use.
Alabama NRCS Dam Safety 5-year Inspection Schedule - reassigns resource engineer responsibilities due to reassignment of resource engineer responsibility in the Decatur office.
Part 520 - Erosion and Sediment Control - completely revises the section on the Best Management Practices (BMP's) and NPDES policy.
Part 520 - Subpart C - Dams - Deleted "Precinct" resource engineer and clarified content of AL-ENG-42 when submitting this form.

Replace:
